

As we begin our 2022 pool season, there are a few things that I wanted to update you on. First, there is still a regular chlorine shortage, and it has affected the Cal-hypo chlorine supply. Second, the supply chain is still in a poor state as evidenced by the empty shelves at the grocery store, lumberyards, and other places we frequent. Lastly, Sustain has informed dealers that they will not be producing the smaller bucket sizes, 6.6# 3" tablets and the 10# Energizer pellets buckets.

Upward is committed to providing quality products, exceptional service, and competitive pricing. With the continued supply chain issues, shortages of products, and price increases; we are committed to get your pool ready for a refreshing, economical, oasis in your own backyard with SUSTAIN®! Upward Pool Supply is here to help you "Start Blue and Stay Blue"®.

1110 W. Butler Rd, Ste J. Greenville, SC 29607
